Dear Hal,

"Live By The Sword", The Gus Russo "book" is the work of a spook or perhaps not even his own "work".

You are mentioned in relation to your interview of Orest Pena.

Russo implies Pena was a Castro agent on the "word" of Warren Smith!

I sent you the blurb Russo put on the cover of Marrou's "First Hand Knowledge."

I've never heard of Russo's publisher Bancroft Press, in Baltimore. This

book was either subsidized or the publisher knew nothing of the subject or Russo's track record.

Hope Lillian is better.

Sincerely,
E. Williams

P.S.

It seems thirty four years ago J. Edgar Hoover in "a personal Quest" and L.B.J. repeated the single Bullet Theory!

Lane in his 92 edition of R.T.J. puts it this way.

He asks David Gates of Newsweek "Who respects Russo as a researcher? After a pause, Gates answered, people who gave me this information asked that it not be attributed to them."
